New 50000 Series Complete Hub Assemblies

Now Available

Don't Replace the Bearing -
Replace the Entire Assembly!

Take advantage of these unique sales opportunities from PTC. Most competitors only offer the bearing for the import applications referenced below. Why settle for a bearing replacement that requires more shop time and potential human error to install when you can simply replace the entire hub assembly.

- OE-Design, fit and function for easy installation and long dependable performance
- Each hub includes water-tight seals containing premium long-life grease
- Improved dimensional end testing to ensure end play meets OE standards (end play is the key parameter to controlling noise)
- ABS sensor testing eliminates connection problems

NEW COMPLETE HUB ASSEMBLIES AVAILABLE
