Maximize Cabin Air Filter Sales Opportunities with PTC's Cabin Filter Installer Kit

PTC is pleased to introduce the **New Cabin Air Filter Installer Kit**. Each Kit includes a 10 pack of the most popular numbers. Complete P.O.P. material is also included, so the installer can easily educate their customers on the importance of proper cabin air filter maintenance and replacement intervals.

KIT INCLUDES:

- Counter Mat
- POP Display
- Tri-fold Information Brochures
- Application Guide

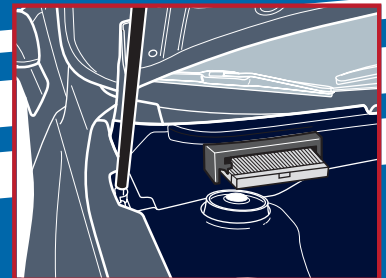

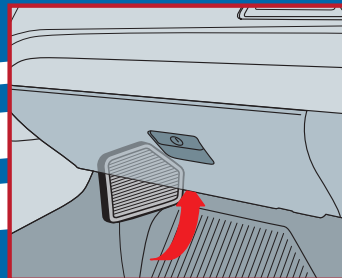

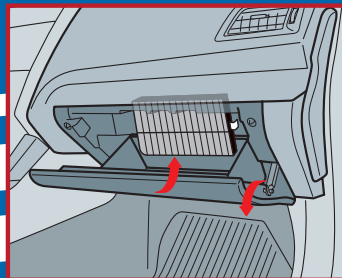

PTC Cabin Air Filters contain premium quality filter media that stops particulates down to 0.001 microns to help filter out over 90% of particles, harmful gases and bacteria that can affect your health.

CABIN AIR FILTER FACTS

- Over 80% of vehicles sold in the U.S. today are equipped with a cabin air filter
- The cabin air filter aids in the operation of a vehicles heating, venting, and air conditioning systems by keeping them free from contaminants
- Contaminates inside a vehicle can be as much as **6x HIGHER** than outside
- The cabin air filter should be changed regularly every 12,000 to 18,000 miles or once a year (individual driving conditions will vary replacement frequency)

Cabin Air Filters are Easy to Replace & Can Be Found In the Following Locations:
