YOUR PARTNERS FOR PROFIT!

Looks Can Be Deceiving!

PTC Provides Premium Filtration Efficiency for Late Model Dodge-Ram 6.7L Diesel Engines

PTC's premium diesel fuel filters are designed to deliver OE-level performance and extended service life for demanding applications such as the Dodge Ram 6.7L Cummins engine. Built for maximum protection, these filters ensure your engine runs cleaner, longer, and more efficiently.

PTC PGF401

OE Filter

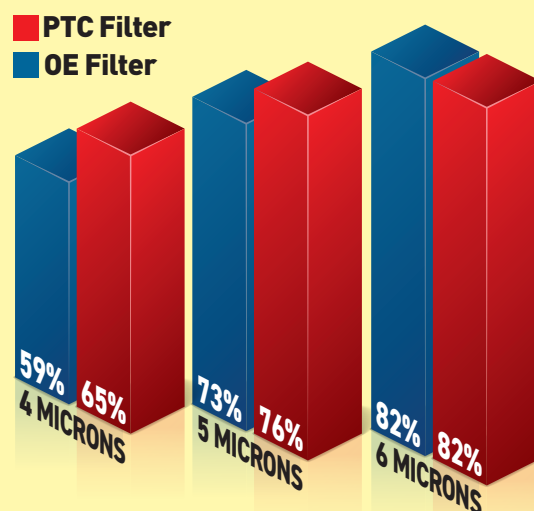

Don't Settle for Less Than the Best.

PTC offers a full line of high-efficiency diesel fuel filters for light and medium-duty truck applications - including coverage for GM Duramax and Dodge Cummins platforms. Trust PTC to protect your engine and maximize performance.

Dodge - Ram 6.7L Diesel Engine Applications Include:

| PTC No. | OEM No. | Dodge - Ram Models | Years |
|---------|------------|------------------------|-----------|
| PGF401 | 68157291AA | 2500, 3500, 4500, 5500 | 2010-2024 |

OVERALL EFFICIENCY TEST

PTC FEATURES:

- **High-Efficiency Filtration Media**
Matches OE multi-layer construction to deliver superior particle capture and extended filter life.
- **Dual Filter Design**
Provides effective fuel-water separation to protect sensitive fuel system components.
- **Ensured Correct Fitment**
Incorporates the same oval stem design with a precision-engineered tapered lip seal for a secure, leak-free fit.
